## Empowering the Future through Arts & New media

**Estat del projecte:** finalitzat

**Àmbit territorial:** europeu

**Temporització:** 2011-2013

**Estatus del grup:** coordinador

**Ens finançador:** Unió Europea

**Codi:** 2011-Ldv-TOI-506

**# Projecte:** 2011-1-BE3-LEO05-03688

**Lloc web:** <http://empoweringthefuture.eu/>

**Investigador/a principal:** Miquel Àngel Essomba

**Equip d'investigadors/es:** Josep Guardiola i Katia Verónica Pozos

### **Resum general del projecte:**

Barcelona Power Lab “Kabua 2.0” is a Virtual Learning Community created by and for youngsters between 12-30 years old in risk of social exclusion. Kabua aims to provide youngsters from formal, non-formal and informal contexts with a series of pedagogical and technological resources as well as diverse kinds of support, but mainly with learning opportunities throughout Challenge-Based Learning experiences adapted to youngsters ages and their socio-cultural-political background, in order to develop empowering processes that enable them to empower themselves with others to participate actively in society.

Se enmarca dentro de un proyecto europeo LLDV para la Transferencia de la Innovación: ETFU – Empowering the Future. E-TFU stands for empowerment of young people through arts and media. We develop and implement vision, strategies and innovative tools for trainers and organizations that want to evaluate and improve their practice.

E-TFU is a network of social agencies and universities from five European cities: Amsterdam, Antwerpen, Barcelona, Berlin and Ostrava. All partners share the same drive: promoting the ‘strength perspective’ in working with youth through arts and media.

Based on best practices and R&D, E-TFU builds tools for an innovative and easy accessible Training Program. We promote a method of action research that enables trainers to plan, guide, evaluate and improve their work with youngsters.

E-TFU has the strong ambition to disseminate the rationale and products of the project in Flanders and in the participating European countries (core partners):

- Artesis Hogeschool Antwerpen, Belgium
- Fachhochschule Potsdam / University of Applied Sciences, Berlin and Postdam
- Universitat Autònoma de Barcelona
- Hogeschool van Amsterdam
